

UNFOLDING INTO THE SACRED SAFETY OF DIVINE ORGASM

*Consider that womb energy is
powerful enough to create life.*

What else can it create, when directed by You?

Explore the Connection of the Divine to Orgasm.

*Allow Yourself to Create enough Sacred Safety
to enter the World of the Divine Orgasm.*

This workshop:

- for the present, is for women only and is being offered in person only.
- is offered in my home in New Brunswick, Canada.
- is offered to small groups of women; maximum six to each group.
- is about the physical sexual orgasm but we will **NOT** be doing anything physical in the workshop.

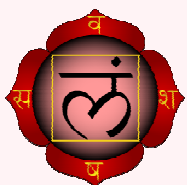

You may want to invite five of Your friends to come together and explore the Divine Orgasm together. The safer You feel in this subject matter, the more You will achieve. That is why it is suggested that You do this workshop with five people that You trust. They can be friends, women from Your spiritual journey that You trust or female family that You feel safe with.

This workshop will be offered to the public for those of You who would feel safer exploring this subject with women that You do not know. **Email Donna or Watch for the Website for Upcoming Dates.**

In this Workshop Explore, Discuss and Learn:
